ASKED JUDGMENTS ON GROTON IRON WORKS SUITS

At the hearing in the case of the United States Steamship corporation against the Groton iron works in the superior court in New London Monday afternoon, at which P. LeRoy Harwood, treasurer of the Mariners' Savings bank and Frederick Conlin, district superintendent of the United States Emergency Fleet corporation, were appointed appraisers, Attorney Frank L. McGuire moved for judgment by default in 14 suits against the company on which attachments have been placed on the plant.

Attorney McGuire sought a restricted judgment to satisfy claims against the company by a sale of goods which were attached before the plant went into the hands of receivers. Judge Reed decided to continue the matters until the May session, the receivers to pay the expense of keepers and other expenses in connection with the attachments.

HE ESCAPED INFLUENZA.

"Last spring I had a terrible cold and gripe and was afraid I was going to have influenza," writes A. A. McNeese, High Point, Ga. "I tried many kinds of medicine, but remained closed with cold. I then took Foley's Honey and Tar Compound, feeling relief from the first. I used seven small bottles. I was a sight to see the phlegm I coughed up. I am convinced Foley's Honey and Tar saved me from influenza. Checks coughs, colds, croup and whooping cough. The Lee & McGood Co."

GEARY VAINLY OPPOSES SALARY RAISE

(Special to The Bulletin.)

There was a spirited meeting of the New London county delegation to the general assembly in the state capitol at Hartford Tuesday afternoon with Senator Waterman chairman, and Representative Holt clerk. It was voted at the meeting to increase the salaries of the county commissioners but the action of last Thursday fixing the salary of a county sealer of weights and measures at \$2.50 a year, and a motion fixing the salary at \$1800 a year was defeated. So that under present conditions there is no fixed compensation for the sealer, whom the county commissioners have authority to appoint.

At the opening of the meeting County Commissioner Charles H. Smith gave an interesting report of the commissioners for the past two years, which has already been printed in The Bulletin.

A motion was made and seconded that the compensation of the county commissioners be \$1800 a year each, a motion of \$2000 a year was also made. John C. Geary of Waterford spoke strongly in opposition to an increase on the ground that there was no justification for the increase especially in view of the fact that the work of the commissioners would be materially decreased. No man in his personal business would advocate an increase in pay following a decrease in labor. He opposed it as a business proposition, and no member should burden the county by giving the price money away as a matter of personal or political friendship. He hardly believed that men elected to represent the several towns, would deliberately give away public money, money they would not give from private funds, to curry favor with the county commissioners. He reminded them that when they returned home they might be called upon to give an account of their stewardship. He was opposed to the increase, as it

was not honest, was unnecessary and not decent. Mr. Geary spoke at length and in a most vigorous manner against the increase. Senator Fox, Representative Goss and Williams also spoke in opposition.

It was plain that the business under discussion was strictly a party line, and that both sides were solid in their view of the question. Representative Graham of Lebanon, spoke strongly in favor of the increase, and there was a lively tilt or two between him and Mr. Geary before the meeting closed.

After the discussion closed, on motion of Mr. Geary, a roll call vote was ordered. Mr. Geary, intimating that there should be no hedging or dodging, the vote resulted in passage of the motion to increase the salary of the commissioners by a strictly party vote.

Representative Comstock of Montville made motion that the action taken at a county meeting last Thursday, in which the compensation of county sealer of weights and measures was fixed at \$2.50 a year, or \$5 for two years, be reconsidered. The Democrats opposed and the Republicans favored the motion and it was carried.

Mr. Graham then made motion that the compensation of sealer of weights and measures shall receive a salary of \$1800 a year. This was opposed vigorously by Mr. Geary, supported by other Democrats and even 3 Democrats of Lebanon, republican, was opposed to the amount named.

After a long debate a motion was put to shape, by Mr. Graham, as a substitute for the original motion, which provided that the salary of county sealer of weights and measures shall be \$1800 a year, expenses shall be \$200 a year, and the appointment shall be for a term of five years at an annual salary of \$1500. This motion was lost by a vote of 12 to 11. The speaker then journeyed without fixing any compensation for a sealer or weigher.

How a Father Has Learned to Save Shoe Bills.

"My son is very hard on shoes, so keeping him properly shod has been quite an expense to me," writes Mr. J. Allison Allen, of Amity, Arkansas. "But since I started to buy Neolin-soled shoes for him I have found that it costs only about a third as much to keep him in shoes."

This is because Neolin Soles are so tough and durable that they wear a very long time. Shoe bills are kept down because you don't need so many pairs.

You can get Neolin-soled shoes at almost any good shoe store. They come in all styles and for all members of the family. Neolin Soles are also available everywhere for resoling. They are produced by a scientific process to be what shoes ought to be: comfortable, water proof and long-wearing. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear any other heels.
